On Saturday 22nd February 2020, Mr Ben Ly had a bus accident when he was driving that requires to take an Alcohol and drug test.

We where unable to take the alcohol test due to following circumstances:

The accident happened around 10:15 am in the morning and Mr Ly was giving his reports to CHP officers, he was taken to Vista, CA to finish those reports and was release from this location around 4:00 pm.

By the time we were and pick him up, we were unable to find any near location before 6:15 pm, when the 8 hours after accident rule expired, and our home location was close at this time.

However, CHP officer make a test for alcohol and drugs at the scene of the accident on breath and blood and preliminary report show the results came negative.

The drug test was taken on Monday 24 February 2020. Records of it will be available upon request.
